

Year 1 have chosen to take part in the Honor's Big Build competition 2017. As a year group we will be designing and making a replica of the new school building, field and car park. This links to our current topic 'Ourselves' as we will be looking at physical and human features in our local area. Our model needs to be built out of recyclable materials. If you have any of the following materials at home:

- Green material/ green plastic bags
- Large/cereal cardboard boxes
- Small cereal boxes
- Black bin bags

We would greatly appreciate you bringing any of these materials into school before our 'Big Build Day' on Tuesday 3rd October.

Wish us luck in hopefully winning £100 class prize 😊

Thanks for your support

Mrs Smith and Miss Clarkson
