

Park Spring Primary School

"Achieving Together"

06 October 2017

Dear Families

Year 4 have enjoyed looking at different artists this half term, and what inspires them. We have also explored sculptors who use recycled goods to create their sculptures. Next week, we are hoping for the children to have an opportunity to create their own sculptures from reusable materials.

We are really looking forward to letting your child's creativity flow in this lesson and the more materials available to them, the better their final products will be. We would really appreciate your help with this by supporting your child in bringing in anything from home that might be useful. This could be:

- Aluminium foil
- Cardboard boxes or cardboard
- Random nuts/bolts/old batteries/springs
- Empty kitchen roll tubes
- Pipe cleaners or straws
- Sequins, googly eyes, any arts/crafts materials
- Old buttons
- Egg cartons
- Bottle tops
- Plastic bottles

Please feel free to get creative yourselves if there is anything else that you think will be useful that isn't on the list. However, please do not part with anything you might want back as I am sure the children will get their hands stuck into everything at their disposal!

Any contributions would be really useful, and we will look forward to showing you our creations at our 'Art Gallery' celebration event, and on the school website.

Many thanks,

Mrs McWhinnie and Miss Haigh
