## **Resources:**

### **Reading wise log in details:**

Go onto the readingwise website: <https://app.readingwise.com/>

And login using Username: **shari** Password: **qzpbjvkx**

### **White Rose Maths:**

You can use your workbooks or a piece of paper to complete the learning worksheets or print them off if you have a printer at home. If you can't do this, just practising along with the video is fine.

### **Non – internet maths activities:**

1) 'Countdown' - What you need to play: 4 'large number' cards with the numbers 25, 50, 75 and 100 on them and a set of cards with the digits 1-10 on them, with at least two cards for each number. Step 1: Set out 4 large number cards (25, 50, 75 and 100) face down and mixed up. Step 2: Do the same with the 1 – 10 cards, making sure you have at least 2 cards for each number. Step 3: Players take it in turns to select one of the big number cards or one of the small number cards, until there are 6 cards laid out altogether. Step 4: Someone who is playing the game needs to generate a 3-digit number. This can be by throwing a dice or selecting cards from a pile of 0 to 9 cards. Step 5: Once the number has been generated, turn over the six cards and players have to try and get to that total using any of the six number cards and any of the four operations. Each card can only be used once and the winner is the first person to reach the total, or the player who is closest after a set length of time.

2) Find things in your house that approximately match the following measurements:

300g   10cm   2m   1kg   500ml   1l   60cm
