

Design Technology –Year 2

How do we keep our luggage safe when travelling?

Week 1

Activity : Research luggage tags, discovering materials used, size and attractive features.

LO: Explore and evaluate existing products.

Evaluating

Activity: Design a luggage tag, listing materials they want to use and why.

LO: Explain why they have chosen specific materials.

LO: Think of their own idea and plan what to do next.

Week 3

Activity: Practise running stitch on plain material.

LO: Use the sewing technique running stitch.

Making

Activity: Create own luggage tag following their plan and using running stitch technique taught

LO: To measure sewing materials.
LO: Use running stitch to join fabric together.

Making

Activity: Add decoration to the luggage tag to make it appealing to a buyer.

LO: Choose adhesive to add appealing decoration.

Making

Week 6

Activity: Parent event – sell tags at a stall.

LO: Evaluate their work against the design criteria.

Evaluating

What will we be learning about over the coming weeks?
